

# Building and Construction Franchise for Sale Nationwide Territories Available

Purchase a territory and have it run under management so you can step back from the business - only if you put the initial hard work in first!

We are looking for enthusiastic, proactive, committed, qualified builders or investors that are looking for an exciting opportunity to own a building inspection and repairs business with the opportunity to build it up and for it to be run 'under management'.

You can earn \$100,000 - \$200,000 plus per year depending on how much effort you want to put in.

This is NOT your average 'Building Inspection' company.

A fantastic opportunity awaits for the right person to earn a great income with a turn key business model and have the unbelievable help and proactive ongoing support of head office who will help you grow your business.

Our franchise model is designed to make life easy for our builders as we manage the sales, marketing, pricing, quotations, job bookings, customer service, complaints, invoicing, new sales opportunities, payments, bad debt, material handling, government tendering, health and safety and - we even help our building inspectors write their building reports!!!!!!

We provide 3 streams of revenue opportunities for our franchise network such as

- Building Report income
- Insurance assessment, reinstatements, emergency works and make safes
- Government Tendering Construction Work

Building Inspection Report businesses can be very lucrative for builders but we are not your average building inspection business - pardon the pun but we do A LOT of heavy lifting for our franchisees so you can focus on doing a great job and generating more sales for your business.

Start your future with Inspect House NZ [www.inspecthouse.co.nz](http://www.inspecthouse.co.nz)
