

Pottery Studio Franchise for Sale NZ wide

Unique Pottery Studio Franchise

The need to try something else in life has become very popular. We have set up a strong and proven brand in the Pottery Studio. Our workshops have become hugely popular both in the studio and the mobile side. It is fun social and entertaining and the perfect owner operated business with a little help from part time staff on contract. You personally do not need to be a potter. Your studio will be able to handle up to 60 persons in a workshop. A good fitout is included with kilns, furniture and tools.

Business Resources

With our franchise system you will get support and advice with everything from equipment, fit out, supplies, training, technology, planning, operational support, and marketing. Experience is not a requirement but personality is. Our full training will be in Tauranga for 1 week. This will be included in your investment.

Penny and Ray will support you throughout and have 70 years combined experience in business, hospitality, tourism and the arts so you will be in good hands.
