

Health Shuttle Companion Driving Service Franchise for Sale Auckland

Build a business that truly makes a difference

Make a Difference in Your Community

Health Shuttle is more than transport. It's about connection, dignity, and care. With New Zealand's aging population and growing demand for companion services, this is your chance to build a meaningful business that provides reliable transport and personal assistance to those who need it most.

Why Choose Health Shuttle?

1. Proven Demand – We already receive more enquiries than we can service, particularly from hospitals, aged care providers, and social workers.
2. Repeat Customers – Many clients require multiple trips each week, giving you a reliable, predictable income base.
3. Exclusive Territories – You'll own the sole Health Shuttle franchise in your area, giving you freedom to grow without competition from within the network.
4. Low Overheads – No storefront required. Run your business from home and keep costs manageable.
5. Meaningful Work – Every journey makes a difference, offering companionship and dignity alongside safe, caring transport.

Training & Support

From the day you join, you'll be supported every step of the way. Franchise partners receive:

1. 1-2 weeks of hands-on training covering operations, compliance, and customer care.
2. Guidance on vehicle setup, signage, safety equipment, and uniforms.
3. Marketing and referral support to connect you with hospitals, aged care providers, and community organisations.
4. Ongoing operational advice and access to a caring, collaborative franchise network.

Who We're Looking For

No transport or healthcare experience is required. The ideal franchise partner will be:

1. Community-minded, empathetic, and reliable.
2. Safety-conscious and professional, while maintaining a personal touch.
3. Motivated to grow a trusted local business with long-term potential.

Investment

\$31K+GST includes the joining fee, training and equipment (excludes vehicle and licenses)

With demand already outstripping supply, Health Shuttle is a low-overhead business model offering both financial stability and the opportunity to create real social impact.
