### Premium Franchise Cafe - Crazy Entry Price

What makes this opportunity particularly compelling, apart from the fact that it is a great cafe, is the price!

To establish a branded cafe of this scale and quality today would cost dramatically more. Here, you are stepping into a fully refurbished store, proven brand system and established customer base at a level well below the cost of setting one up from scratch.

For the right buyer this represents a fabulous opportunity to acquire a premium cafe at a remarkable entry price, improve performance and potentially create serious capital gain along the way.

The business operates within a powerful weekday trading environment driven by a large professional population who rely on quality coffee and convenient food as part of their daily routine.

The cafe has recently been fully refurbished by Head Office, meaning an incoming owner walks into a modern and compliant environment without the disruption and capital cost of a new build.

Average weekly sales sit at approximately \$16,800 including GST, providing a solid base with genuine upside available for a motivated owner-operator.
