Great Pit Stop in Auckland

Franchise for Sale Description

Automotive Franchise for Sale Auckland

Located on a busy main road this is one of Pit Stops star performers. All equipment is up to scratch with no capital outlay required immediately. Rent is very reasonable, with the head lease being held by the Franchisor.

A very loyal customer base has been grown by the current owner, which is a great springboard for a new owner to benefit from. This Pit Stop is also known for its expertise in European cars which gives it an added point of difference. It is the only auto service shop in its immediate locality which is a plus.

Pit Stop is looking for a similar new owner to take this business over. Someone with a mechanical background is a definite plus, but more importantly someone with great customer service, and people management skills to maintain the current business, team, and grow it further.
