Franchise for Sale Description

Steel Building Franchise for Sale New Plymouth

On the market for the first time is the Wide Span Sheds Franchise for Taranaki.

This business is going from strength to strength and has a large amount of forward work booked in.

There is a good complement of qualified staff to do the physical building and project management, so you don't have to be a builder yourself.

With excellent systems in place and a strong cost position, there are good opportunities ahead.

This business would suit someone who has a good grasp of management skills or for a company already in the building business as a superb add on business venture.

The current owner has a new business venture he wishes to pursue in Auckland.

Call me today for an information memorandum and to discuss this opportunity further.

Business Resources

Great building staff on board

Good systems in place

Excellent amount of forward work for the next 12 months.
